Summary

Software developer experienced in building SaaS applications and internal tools. Improved application performance by 50% and accelerated feature delivery by 20%. Strong in Go, with experience designing APIs, backend systems, and scalable applications.

Technical Skills

Languages: Go, TypeScript, JavaScript, Python

Frontend: React, Next.js, Svelte

Backend: Node.js, REST APIs

Databases: PostgreSQL, MySQL, MongoDB

Cloud & DevOps: AWS, GCP, Docker

Tools: Git, Linux, FFmpeg, Vosk

Experience

Frontend Developer

IGPS — São Paulo, Brazil | Apr 2025 – Jul 2025

- Led the frontend redesign of a SaaS platform, improving usability, performance, and overall user experience
- Optimized application performance, reducing page load times by approximately 50%
- Built real-time dashboards for KPI tracking and data-driven decision-making
- Developed scalable frontend modules using Next.js and TypeScript, accelerating feature delivery by 20%

Cybersecurity & IT Manager

Leo Law Co., LPA — Remote | Apr 2023 – Mar 2024

- Implemented cybersecurity policies and safeguards to protect confidential business and client information
- Ensured compliance with industry regulations through improved security practices and internal controls
- Delivered security training programs for employees, increasing security awareness and policy adherence
- Managed IT infrastructure, system security, and day-to-day technology operations

Additional Experience

Freelance Illustrator | 2019 – 2023

- Delivered 20+ client projects with repeat business

Sales Associate, Verizon Victra | 2018 – 2019

- Exceeded sales targets by 15% and trained new hires

Projects

SaaS Web Application — Next.js, TypeScript

- Built the full frontend for a SaaS platform, including core user workflows and dashboards
- Implemented authentication flows and API integrations
- Developed reusable components with focus on performance and scalability

TUI Framework — Go (Bubble Tea)

GitHub: <https://github.com/cheezecake/boba>

- Built a reusable terminal UI framework on top of Bubble Tea
- Designed component-based architecture for interactive CLI applications
- Implemented state management and input handling

Education

Bachelor of Science in Computer Science

Nyack College — Nyack, New York

Languages

English (Native), Portuguese (Native)
